DETAILED ACTION

1. In view of amendment filed March 27, 2006, claims 25, 39 have been cancelled, and new claim 92 has been added. Claims 24, 26-30, 38, 40, 91, 92 are examined with merit.
2. In view of amendment filed March 27, 2006, the rejection of claims 24-30, 38-40, 91 under 35 U.S.C. 102(b) as being anticipated by Hart et al. (US 3,150,977), is withdrawn.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 24, 26-30, 38, 40, 91, 92 are rejected under 35 U.S.C. 102(e) as being anticipated by Parker et al. (US 2003/0055190 A1) for the reasons adequately set forth from paragraph 3 of non-final office of December 28, 2005.

Applicant's arguments filed March 27, 2006 have been fully considered but they are not persuasive.

Regarding claims 24, 26-30, Parker et al. (page 3, paragraph 0031) clearly disclose crotonic acid, itaconic acid, and maleic acid as claimed.

Regarding claims 38, 40, 91 Parker et al. (page 3, paragraph 0031) clearly disclose acrylamido as claimed.

Regarding claim 92, Parker et al. (page 2, paragraph 0024) clearly disclose the species as claimed.
